TALK OF THE TURF.

Lovers of Racing Had Plenty of Things to Keep Them Guessing Yesterday.

POOL-ROOM MEN VERY UNEASY

Generally Conceded that Monmouth Park Is a Thing of the Irretrievable Past.

thicing men had nothing to do yesteriay the rate. They had any quantity of material or gossip. That the reasons for postnonemene at both winter tracks were discussed. Any quantity of stories were heating about concerning the positionements, but the weather was the real cause. Then the indictment of Monmouth Park came in for a fair share of consideration. The probabilities of a racing bill in New Jersey, and the prospects of the bill for the extension of the season in this state were discu-sed. The chances of the ivy City track bolding a successful meeting were also argued, and Richard Croker's attempt to purchase Helen Nichols for \$30,000 was freely commented apon. These debates were interrupted only by the popping of carks, and the hours flew by swittly until nightfall. Some of the sports who cannot spend a day without putting down a bet, found peol-rooms where New orleans races were being played and spent the afternoon guessing.

The indictment of the Monmouth Park Association is said to have aroused great in-dignation among the farmers and garden truck men of Monmouth County. Naturally the action of the Grand Jury strikes the farmers in the region of their pockets, and that is where it hurts. Turfmen pay them the best prices for their hay, oats, &c., and for garden truck, and it is the fact that this profitable market is to be taken away that causes the outery. Nevertheless the Grand Jury has only done its duty. Under the laws, as they now stand, the jurors could not take any other action. To do so would be a violation of their oaths. There is but somed on the magnificent Long Branch comes to the relief of the Association. As matters now stand, not even the most sanguine have any lope that a javorable bill umberland, M. Maclines, Liberal, bus been will be passed. What the Association will do

is monwhat dudayed during the early hours of the day.
